"The QuickStart experience was unbelievably pleasant. The environment was very nice, the staff was fantastic, helpful and friendly. I learned so much from this class that I will be able to take back to my job and implement. The instructor made it so comfortable and easy to ask questions about anything and went the extra mile when we did not understand something. He really walked us through obstacles we all seemed to have and had much patience. He was so passionate about the material that he made it fun and interesting for all of the students in the class." - **QuickStart Alumni, Greg Adams.**
