

HTML Advanced

Modality: Self-Paced Learning

Duration: 1 Hour

SATV Value:

CLC:

NATU:

SUBSCRIPTION: Learn, Master

About this course:

This one-hour HTML advanced online course is intended for learners who have already taken some form of beginners training in HTML, either independently or through our HTML Beginner courses. This one-hour advanced online training course dives deeper on the basics of HTML knowledge. HTML is one of the main programming languages that power the internet. Once you master it, you can begin to create your own web content, whether it be simple websites or complex online applications. Being the essential building block the web is built on it's simple code that anyone can learn to build basic level web pages. HTML is easy to learn and fun to play with. Our HTML classes teach you how to format text on your pages, add hyperlinks, pictures and tables. Even if you plan on using an authoring tool like Dreamweaver or WordPress, you still need to know HTML.

The average salary for Front End Web Developer is **\$88,680** per year.
