Learning Style: On Demand

Provider: CompTIA

Difficulty: Beginner

Course Duration: 19 Hours

CompTIA A+ Certification: (Exams 220-1101 and 220-1102)

About the Course:

It is a widely held belief that the CompTIA certified A+ professionals are amazing problem solvers. They support the core technologies in play today, such as security, data management, cloud, and much more. If you wish to launch your career in the

IT industry then CompTIA A+ is the way to go. It helps build the foundation for a successful career. It is the only performance based credential which is recognized by the industry to showcase the ability of a professional to think of his or her feet and perform critical support tasks undertaken by IT in a jiffy. The credential has a trust factor which catches the eyes of the employers, all over the world, and brands the individual to be the problem solver in technical and end-point management support roles. The certification is regularly updated to keep pace with the evolving times.

Course Objectives:

The course will enable the student to learn how to configure, install, troubleshoot, optimize, upgrade and repair, as well as perform preventive maintenance on digital devices, personal computers, and operating systems. Those enrolled in this course, will learn how to:

- Support operating systems.

Course Outline:

This Course Includes:

- Course Introduction
- Lesson 1: Installing Motherboards and Connectors
- Lesson 2: Installing System Devices
- Lesson 3: Troubleshooting PC Hardware
- Lesson 4: Comparing Local Networking Hardware
- Lesson 5: Configuring Network Addressing and Internet Connections
- Lesson 6: Supporting Network Services
- Lesson 7: Summarizing Virtualization and Cloud Concepts
- Lesson 8: Supporting Mobile Devices
- Lesson 9: Supporting Print Devices
- Lesson 10: Configuring Windows
- Lesson 11: Managing Windows
- Lesson 12: Identifying OS Types and Features
- Lesson 13: Supporting Windows
- Lesson 14: Managing Windows Networking
- Lesson 15: Managing Linux and macOS
- Lesson 16: Configuring SOHO Network Security
- Lesson 17: Managing Security Settings
- Lesson 18: Supporting Mobile Software
- Lesson 19: Using Support and Scripting Tools
- Lesson 20: Implementing Operational Procedures

Credly Badge:

Display your Completion Badge And Get The Recognition You Deserve.

Add a completion and readiness badge to your LinkedIn profile, Facebook page, or Twitter account to validate your professional and technical expertise. With badges issued and validated by Credly, you can:

- Let anyone verify your completion and achievement by clicking on the badge
- Display your hard work and validate your expertise
- Display each badge's details about specific skills you developed.

Badges are issued by QuickStart and verified through Credly.
