Learning Style: On Demand

Technology: VMware

Difficulty: Beginner

Course Duration: 40 Hours

VMware VCP-DCV

About This Course:

This course takes you from introductory to advanced VMware vSphere management skills. Starting with the knowledge required to install and configure, you will also develop the advanced skills needed to manage and maintain a highly available and scalable virtual infrastructure. You will explore the features that build

a foundation for a truly scalable infrastructure, and discuss when and where these features have the greatest effect. This course prepares you to administer a vSphere infrastructure for an organization of any size using vSphere 7.0, which includes VMware ESXi 7.0 and VMware vCenter Server 7.0.

Course Objectives:

The VMware VCP-DCV (vSphere 7) course is designed to provide participants with the knowledge and skills necessary to deploy, manage, and troubleshoot VMware vSphere 7 environments. vSphere is a virtualization platform that enables organizations to create and manage virtualized IT infrastructures

Audience:

- System Administrators managing VMware vSphere environments

- IT Operations Personnel responsible for ESXi hosts and vCenter Server

- Systems Engineers who need to troubleshoot vSphere configurations and performance

- VMware Certified Professionals (VCPs) looking to deepen their troubleshooting skills

Prerequisites:

While there are no strict prerequisites, to enroll in the VMware VCP-DCV (vSphere 7) course, participants should have a basic understanding of virtualization concepts and experience working with computer hardware, operating systems, and networking

Course Outline:

Credly Badge:

Display your Completion Badge And Get The Recognition You Deserve.

Add a completion and readiness badge to your Linkedin profile, Facebook page, or Twitter account to validate your professional and technical expertise. With badges issued and validated by Credly, you can:

- Let anyone verify your completion and achievement by clicking on the badge
- Display your hard work and validate your expertise
- Display each badge's details about specific

skills you developed.

Badges are issued by QuickStart and verified through Credly.
