## Microsoft® Outlook® for Office 365™ : Part 1

### About This Course:

As email grows in popularity and use, most organizations have found the need to implement a corporate mail management system such as Microsoft® Outlook® to handle the messages and meeting invitations sent among employees. In this

course, you will use Outlook to send, receive, and manage email messages; manage your contact information; schedule appointments and meetings; create tasks and notes for yourself; and customize the Outlook interface to suit your working style.

## **Course Objectives:**

- Navigate Outlook to read and respond to email.
- Use the Address Book and format and spell check new messages.
- Attach files to and insert illustrations in messages.
- Customize read and response options.
- Use flags, categories, and folders to organize messages.
- Create and work with contacts.
- Create appointments and schedule meetings in the calendar.
- Create and work with tasks and other apps.

## **Audience:**

- Office professionals who rely on Outlook for communication and scheduling.
- Administrative staff who manage meetings, tasks, and correspondence.
- New hires and onboarding employees needing a quick start with Microsoft Outlook.
- Individuals looking to improve their digital communication and organizational skills.

## **Prerequisites:**

- To ensure your success, you should have end-user skills with any current version of Windows, including being able to start and close applications, navigate basic file structures, manage files and folders, and access websites using a web browser
