Microsoft® Word for Office 365™ : Part 1

About This Course:

Microsoft® Word is designed to help you move smoothly through the task of creating professional-looking documents. Its rich features and powerful tools can make your work easy, and even fun. In this course, you'll learn how to use Word on

the desktop to create and edit simple documents; format documents; add tables and lists; add design elements and layout options; and proof documents.

Course Objectives:

- Navigate and perform common tasks in Word, such as opening, viewing, editing, saving, and printing documents, and configuring the application.
- Format text and paragraphs.
- Perform repetitive operations efficiently using tools such as Find and Replace, Format Painter, and Styles.
- Enhance lists by sorting, renumbering, and customizing list styles.
- Create and format tables.
- Insert graphic objects into a document, including symbols, special characters, illustrations, pictures, and clip art.
- Format the overall appearance of a page through page borders and colors, watermarks, headers and footers, and page layout.
- Use Word features to help identify and correct problems with spelling, grammar, readability, and accessibility.

Audience:

- Beginners with little to no experience using Microsoft Word
- Office professionals and administrative staff handling written documentation

Prerequisites:

- To ensure your success, you should have end-user skills with any current version of Windows, including being able to start and close applications, navigate basic file structures, manage files and folders, and access websites using a web browser.

Course Outline:

Lesson 1: Getting Started with Word

Topic A: Navigate in Microsoft Word

Topic B: Create and Save Word Documents
