Learning Style: On Demand

Technology: CompTIA

Difficulty: Beginner

Course Duration: 15 Weeks

CompTIA A+, Network+, Security+ (DoD 8570 / 8140 Bundle)

Develop a broad foundation in IT support, networking, and cybersecurity through a certification pathway aligned with CompTIA A+, Network+, and Security+ knowledge areas. Learners build skills in hardware and operating-system support, troubleshooting, network technologies, network operations, threat identification, access control, security architecture, risk management, and incident response. The program is designed to support entry-level technical roles and preparation for DoD workforce qualification pathways where the selected certifications and role

requirements apply.
