

Introduction to CSS Web Development Bootcamp

Modality: Self-Paced Learning

Duration: 2 Hours

SUBSCRIPTION: Learn, Master, Master Plus

CSS is one of the main foundation languages for much of the content on the internet today. Along with HTML and JavaScript, CSS is used to form what we see on the internet. Perfect for beginners, and people who want to refresh their skills to learn more about CSS is and how to use it. Knowing how to apply CSS is an excellent skill to have. CSS is everywhere and by the end of this course you will have what you need to use it on your own webpages. We walk you through step by step with detailed explanations of code and more. We add and update a webpage from scratch adding CSS to bring it to life and completely change the way it looks.

Course Outline:

- Section 1: CSS course information
- Section 2: Learning CSS
