Managing Project Teams

About this course:

A project team is a team whose members typically belong to various organizations, different roles and are allocated to the same project activities. A team can be split into sub-teams, as needed. This course will give you the expertise required to build a better view of the present and desired state of your company, its activities, and

position in the market. Discover how to create a vision and mission statement for your organization, from functional data to evaluating external and internal factors, after collecting the data that affects your business.

The Project Team Manager can earn an average salary of \$75,260 per annum.

Course Objective:

- Know and manage the team

Audience:

This online training is intended for:

- Whoever is or will be interested in the leadership and management of the teams. Attendees may have experience in team building aptitudes and/or project management skills.
