

Migrating to SharePoint Online (MS-301.4)

Modality: On Demand

Duration: 6 Hours

About this course:

This course focuses on content migration by using suitable available tools and resources; existing content migration to SharePoint Online and OneDrive for Business.

This course concentrates on two important tools; SharePoint Migration Assessment Tool (SMAT) and SharePoint Migration Tool (SPMT). Here, the instructor will also discuss their application and applicable scenarios in detail.

Course Objective:

At the end of the course, students will be able to:

- Explain suitable tools and resources to use during the phases of the migration process
- Access migrated data with SharePoint Migration Assessment Tool (SMAT)
- Content migration to the cloud with SharePoint Migration Tool (SPMT)

Audience:

The target audience for this course is IT experts who are responsible for the deployment and management of teamwork infrastructure of an organization.
