Defining a Hybrid Messaging Strategy (MS-201.1)

Modality: On Demand

Duration: 15 Hours

This course is for professionals planning to enroll in the MS-201 Exam leading to the MS-201 Certification. The official exam voucher is not included in this course. However, the official exam voucher can be purchased separately on request.

About this Course:

This is the fourth course of the Microsoft 365 Messaging Administrator 5 Course Series and helps students prepare for success in the MS-201 Certification Exam. This is an intermediate-level course providing Office 365 Professionals with an overview of the hybrid messaging world. Professionals sharing expertise in hybrid environment deployment and data migration are highly required by businesses striving for growth and expansion. This course trains professionals with the art of deploying services in a hybrid ecosystem and strives to simplify information exchange by seamless migration of data.

The teachings of this course reviews the Mailbox and IMAP Migration Features and Functionalities and also covers key concepts relating to troubleshooting and implementing a hybrid environment in a business enterprise. Professionals liable for managing and optimizing Microsoft Office 365 Messaging Infrastructure can greatly benefit from the teachings of this course.

Course Objectives:

The core objective of this course is to help professionals gain a better understanding and conceptual knowledge of the following key elements:

- Plan Migrations for Mailbox
- Plan Migrations for IMAP
- Plan Staged and Cutover Migrations
- Performing Advanced Level Migrations
- Understanding Requirements of Exchange Hybrid Deployment
- Operating Hybrid Configuration Wizard
