

# **Managing Messaging Security, Hygiene, and Compliance**

**Modality: On Demand**

**Duration: 15 Hours**

*This course is for professionals planning to enroll in the MS-201 Exam leading to the MS-201 Certification. The official exam voucher is not included in this course. However, the official exam voucher can be purchased separately on request.*

## **About this Course:**

Managing Messaging Security, Hygiene, and Compliance is the fifth & the last course in the Microsoft 365 Messaging Administrator Series. The main goal of this series of courses is to train and prepare professionals for success in the MS-201 Certification Exam. It is specifically designed for IT professionals and Microsoft 365 System Administrators.

This course mainly focuses on Microsoft Exchange Online & Exchange Servers' Settings and Configurations relating to Messaging Security Management & Compliance. Professionals will get to know about the Messaging Hygiene Essentials, Spam Filtering, and Advanced Threat Protection Features in Microsoft Exchange. Besides this, core concepts of messaging security such as Data Loss Prevention & Retention Policies, Audit Log Examination, and Messaging Compliance Search Mechanisms are also elaborated in this course. Professionals will also learn the art of implementing and deploying messaging security solutions and will get to know about admins and users' permissions management.

## **Course Objectives:**

The core objective of this course is to help professionals develop a better understanding and sound knowledge of the following key concepts:

- Messaging Hygiene Planning
- Anti-Spam Policies and Anti-Malware Management
- Advanced Threat Protection Management
- SCC Messaging Compliance Planning
- Exchange Messaging Compliance Planning
- Exchange Online Auditing and Archiving Management
- Content Search Management
- User Role-Based and Admin Role-Based Permissions Management
- Exchange Setup Planning for AD and RBAC Split Permissions
