

## **Project Management Professional PMP v6**

**Modality: Self-Paced Learning**

**Duration: 15 Hours**

**SATV Value:**

**CLC:**

**NATU:**

**SUBSCRIPTION: Learn, Master**

### **About the course:**

This course is designed to prepare you for the PMP exam that will then lead to a PMP certification. Please note that the official exam voucher is not inclusive of this course but can be bought separately upon request.

Any one who is aspiring to become a professional project manager needs the PMP certification in order to be recognised as one. A PMP certification means that you have been certified and acknowledged by the Project Management Institute itself. This is a key to make your mark in the professional world as a Project Manager and this course is designed to prepare you for the PMP exam which will then result in getting the PMP certification.

### **Aims:**

- Being able to define the basics and primary rules or principals like the methodology of project management and how to define it within an Organization
- you should be able to initiate a project yourself and plan it accordingly with the main components
- planning will include things such as costs, risks, resources, quality the time it will take etc.
- you will be able to execute and monitor a project working alongside shareholders and keeping communication open with them
- learning about closing a project

### **Audience:**

- Aspiring or current project managers wanting to prepare for the PMP exam
- managers that can include directors or general managers
- project leader or even team members

### **Prerequisites:**

You should have a secondary degree which could be a high school diploma and you should have around 35 hours of project management education. In addition to that should've worked around 7500 either directing or leading a project.
