

# **Practice Exam - 70-411: Administering Windows Server 2012**

**Modality: On Demand**

**Duration: 30 Min**

## **About this Exam:**

This intermediate-level 30 Minutes 70-411 Practice Exam is specifically designed for Network Administrators, IT Professionals and Windows Server Administrators. This practice exam accredits the skills and knowledge of a System Administrator in Windows Server 2012 Planning, Designing, and Administration.

The MCSA Windows Server 2012 Certification also validates the proficiency of the professionals relating to Windows Server 2012 Infrastructure Maintenance. The administration tasks & services include Network Access, Group Management, & Data Security. The 70-411 Certification Exam is a pivotal exam for Network Administrators and is the second of the three essential certification exams required to attain the MCSA Windows Server 2012 Certification. The other two certification exams include 70-410 and 70-412 Exams related to Windows Server 2012 Installation and Configuration.

The MCSA Windows Server 2012 Certification is perfect for professionals who want to succeed in their professional careers and successfully land a reputable job in a high-profile Information Technology Firm & Organization.
