

# **Practice Exam - 300-115: Implementing Cisco IP Switched Networks**

**Modality: On Demand**

**Duration: 30 Min**

## **About this Exam:**

This intermediate-level 30 Minutes 300-115 Practice Exam is specifically designed for Network Support Technicians & Administrators, System Engineers & Administrators, and Help Desk Professionals. This practice exam accredits the skills and knowledge of a Cisco Network Engineer in Local and Wide-Area Networks Planning, Implementation, Verification, and Troubleshooting.

The CCNP Routing & Switching Certification also validates the proficiency of the professional making him eligible to work collaboratively with IT Specialists to rectify and resolve network security concerns. The 300-115 Certification Exam is a pivotal exam for Network Engineers and Administrators and is the second of the three essential certification exams required to attain the CCNP Routing & Switching Certification. The other two include the 300-101 and 300-135 Certification Exams related to Cisco IP Switched Networks Implementation and Cisco IP Networks Troubleshooting & Maintenance.

The CCNP Routing & Switching Certification is perfect for professionals who want to succeed in their professional careers and successfully land a reputable job in a high-profile Information Technology Firm & Organization.

## **Course Objectives:**

The core objective of this course is to help professionals train and prepare for the 300-115 Certification Exam. The 300-115 is the second of the three obligatory exams for professionals striving to achieve the CCNP Routing & Switching Certifications.

## **Audience:**
