Difficulty: Intermediate

Course Duration:

Practice Exam - AZ-104: Microsoft Azure Administrator

About this Exam:

Microsoft Azure Administrator practice test is designed to help candidates prepare for and pass the Microsoft AZ-104 exam. This exam is aimed at Microsoft Azure Administrators who want to test their knowledge implementing, managing, and

monitoring identity, governance, storage, compute, and virtual networks in a cloud environment, plus provision, size, monitor, and adjust resources, when needed

Skills Measured:

Successful candidates will have mastered the following concepts:

- Manage Azure identities and governance
- Implement and manage storage
- Deploy and manage Azure compute resources
- Configure and manage virtual networking
- Monitor and back up Azure resources

Who should take this Exam?

Candidates for this exam are Azure Administrators who manage cloud services that span storage, security, networking, and compute cloud capabilities. Candidates have a deep understanding of each service across the full IT lifecycle, and take requests for infrastructure services, applications, and environments. They make recommendations on services to use for optimal performance and scale, as well as provision, size, monitor, and adjust resources as appropriate.

Candidates for this exam should have proficiency in using PowerShell, the Command Line Interface, Azure Portal, ARM templates, operating systems, virtualization, cloud infrastructure, storage structures, and networking.

Certifications:

This practice exam will prepare you for Microsoft Azure Administrator Certification. To get the Official Exam Voucher for this certification, please contact [Support](#).
