

# **Adobe Captivate 5.5**

**Modality: On Demand**

**Duration: 1 Hour**

## **About this Course:**

The Adobe Captivate 5.5 training series explores key features for creating eLearning content.

In this course, you'll learn how to create different types of projects, add audio and video to project slides, and create objects for visual enhancement and user interaction. Also learn how to work with existing Microsoft PowerPoint presentations, create quizzes and question pools, and publish your finished project.

## **Audience:**

This course is intended for:

- Web designers who wish to learn about Captivate 8
- Anyone wishing to incorporate Captivate into their web workflow

## **Prerequisites:**

- There are no prerequisites for this course

## **Course Outline:**
