

Cybersecurity in Azure with Security Center

Modality: Self-Paced Learning

Duration: 1 Hour

SATV Value:

CLC:

NATU:

SUBSCRIPTION: Learn, Master

About this course:

Azure Security Center is a unified infrastructure security management system that strengthens the security posture of your data centers and provides advanced threat protection across your hybrid workloads in the cloud, whether they're in Azure or not.

If you're looking to get in to the Cybersecurity industry or are already working for an organization in the same capacity, knowing how to work with Azure Security Centre is a must.

Course Objective:

- Cybersecurity Concerns in Cloud Computing
- Introduction to Azure Security Centre
- A walk-through of the tool
- How will it help ease your security needs for both cloud and on-premises services
- Job outlook for Cyber-security candidates

Course Outline:
