Learning Style: On Demand

Technology: Amazon Web Services

Difficulty: Intermediate

Course Duration: 14 Days

AWS Capstone Project

About this course:

Understand the requirements and the process to deploy an EC2 Instance or a CloudFormation template. The CloudFormation template for example is an easy to use Blockchain template that will show how easy it to deploy via an AWS Template. Part of the exercise is to setup the IAM and security requirements and network

requirements such as a VPC. Deploying an EC2 instance is also covered.
