

# **Implementing Secure Solutions with Virtual Private Networks (SVPN)** **v1.0 - On Demand**

**Modality: Self-Paced Learning**

**Duration: 40 Hours**

**SATV Value:**

**CLC: 5 Units**

**NATU:**

**SUBSCRIPTION: No**

## **Course Information**

### **About this course:**

This course teaches you skills to implement, configure, monitor, and support enterprise VPN solutions.

The training will take you through a combination of lessons and hands-on experiences to assist you in acquiring the knowledge and skills to deploy and troubleshoot Dynamic Multipoint Virtual Private Network (DMVPN), traditional IP Security (IPsec), FlexVPN, and remote access VPN, enabling you to create secure and encrypted data, remote accessibility, and increased privacy.

Upon completing this course, you will be fully prepared to take the Implementing Secure Solutions with Virtual Private Networks (300-730 SVPN) exam.

### **Course Objective:**

After taking this course, you should be able to:

- Review site-to-site and remote access VPN design options
- Review troubleshooting processes for various VPN options available on Cisco routers and firewalls
- Introduce site-to-site VPN options available on Cisco routers and firewalls
- Introduce remote access VPN options available on Cisco routers and firewalls

### **Audience:**

This course is designed for professionals in the following job roles:

- Channel Partner
- Network security engineer
- CCNP Security candidate

### **Prerequisite:**

You should have the following knowledge and skills before taking this course:

- Experience navigating and managing Cisco routers and firewalls
- Clear understanding of the benefits of site-to-site and Remote Access VPN options
- Familiarity with the various Cisco router and firewall command modes

The following Cisco courses can help you gain the knowledge you need to prepare for this course:

- Implementing and Operating Cisco Security Core Technologies (SCOR)
- Implementing and Administering Cisco Solutions (CCNA)

### **Course Outline:**

- **Introducing VPN Technology Fundamentals**
- **Implementing Site-to-Site VPN Solutions**
- **Implementing Cisco Internetwork Operating System (Cisco IOS) Site-to-Site**
- **FlexVPN Solutions**
- **Implement Cisco IOS Group Encrypted Transport (GET) VPN Solutions Implementing Cisco AnyConnect VPNs**
- **Implementing Clientless VPNs**
