Cisco SD WAN Operation and Deployment 2.0 (ENSDW)

About this course:

The *ENSDW - Cisco SD-WAN Operation and Deployment v1.0* course provides an overview of the Cisco SD-WAN solution and SD-WAN components. Students will learn how to create, manage, and operate a secure extensible network using Cisco SD-WAN products. The course covers how to configure, operate, and monitor overlay routing in a secure extensible network. Students will also learn about

policies and quality of service (QoS) in the SD-WAN overlay network.

Course Objective:

Upon completion of this course, you will be able to:
