Cisco Webex Teams Collaboration Workshop (WXTW)

About this course:

Cisco Webex Teams is an app-centric, cloud-based service that provides a complete collaboration suite for teams to create, meet, message, call, care, whiteboard, and share, regardless of whether they're together or apart in one

continuous work stream before, during, and after meetings. Being able to understand how this works and what the features are is the key focus of this 2-day course. QuickStart's Webex Teams Collaboration Workshop should be taken by students who have a working understanding of Cisco Collaboration Products. This Cisco Webex Teams Workshop enables learners to describe Cisco Webex Teams, comprehend Cisco Webex Teams Meetings, and grasp Cisco Webex Teams Messaging, among much more. This workshop is intended to be taken by system engineers, system administrators, architects, and channel partners. Learn more below.
