Learning Style: On Demand

Technology: Adobe

Difficulty: Beginner

Course Duration: 2 Hours

InDesign CC New Features

About this Course:

Adobe's InDesign is a page layout program that allows complete compatibility with other Adobe graphic applications such as Photoshop and Illustrator. InDesign offers all the tools needed for page layout, including typographic control of text, master pages, styles, controlled text flow and multiple column layouts.

Course Objectives:

- You'll learn InDesign's innovative beginning to advanced features, including drawing tools, graphics, text frames, transparency, tables, color gradients and other options. You'll have creative control over newsletters, brochures and flyers.

Audience:

- People who want to make professional (longer-form) print designs like catalogues, company reports, magazines, and books.

Course Outline:
