

NetApp FlexCache Volumes Seamless Access to Data on Any Platform

Modality: On Demand

Duration: 1 Hour

About this Course:

With NetApp FlexCache technology, a feature of ONTAP 9 software, cache only the actively-read data, rather than entire files or volumes, either locally within a datacenter or geographically dispersed at remote sites.

Course Outline:

The Course outline includes:

- Course Introduction
- Global Filesystem
- FlexCache Volumes
- FlexGroup Volume
- FlexCache Best Practices and Enhancement

- Disconnected mode and FlexCache best Workloads
- Summary
