

## **SQL Basics**

**Modality: Self-Paced Learning**

**Duration: 3 Hours**

**SUBSCRIPTION: Learn, Master, Master Plus**

### **About this course:**

The series will start with basic queries showing how to display data within a database and then move to more complex queries involving multiple tables. The training also covers many of the SQL functions that allow you to manipulate the data within the database. Upon completion of this series you will be thoroughly versed in SQL and writing queries for your database.

### **Audience:**

- IT Professionals

### **Prerequisite:**

- There are no prerequisites required for this course

### **Course Outline:**

- A. Getting Started**
- B. Advanced Search Functions**
- C. Searching Multiple Tables**
- D. Creating and Structuring Databases**
- E. Special Data Functions and Instructions**
- F. Working with Dates**
- G. SQL Functions**
- SQL - Basics Training - Assessments**
