

Cybersecurity Bootcamp - Walkthrough

Modality: On Demand

Duration: 15 Min

About this Course:

Cybersecurity Bootcamp prepares you to launch or advance your career in cybersecurity. We prepare our graduates to identify and solve organization's information systems security problems. You'll have the in-demand skills to maintain firewalls, control structures and define access rights. In other words, after our Cybersecurity Bootcamp you'll be able to maintain a robust and secure IT environment, and that's a valuable, much-needed skill.
