Microsoft 365 Enterprise Administrator: Identity and Services (MS-100)

Modality: On Demand

Duration: 8 Hours

About this Course:

This course covers three central elements of Microsoft 365 enterprise administration, Microsoft 365 tenant and service management, Office 365 management, and Microsoft 365 identity management. In Microsoft 365 tenant and service management, you will examine all the key components that must be planned for when designing your Microsoft 365 tenant. Once this planning phase is complete, you will learn how to configure your Microsoft 365 tenant, including your organizational profile, tenant subscription options, component services, user accounts and licenses, and security groups. Finally, you will learn how to manage your tenant, which includes the configuration of tenant roles and managing your tenant health and services.

Course Objectives:

- MS Office 365 Tenant Management, Configuration, and Designing
- MS Office 365 Configuration and Services
- Planning Your Service Setup, Hybrid environment, and Migration to Office 365.
- The functionality of the product of Microsoft Office 365
